

AM 304 – ASSET MANAGEMENT STRATEGY

AM 304 will help you develop an understanding of the importance and function of the strategic aspects of asset management, including the areas needed to put together an Asset Management Strategy or Strategic Asset Management Plan.

This course builds on the information introduced in AM 202 – Understanding Requirements.

The course materials are based on the authoritative resources International Infrastructure Management Manual (IIMM) and ISO 55000 suite of Standards.

On completion, learners are awarded a digital badge which can be saved and shared.

This course is a collaboration between Apōpō and WSP.
