Waugh Infrastructure Management

Our Sustainability Commitments

IPWEA

IPWEA Otago/Southland Branch Day
5th November 2021

WAUGH

Partnering with Toitū Envirocare throughout 2020 supported Waugh Infrastructure Management in meeting the requirements of ISO 14064-1, in a very structured and rigorous process.

Use of science-based tools, to prioritise the actions needed to make real progress with change to our carbon footprint

In understanding our business' impact on carbon and climate – using data and evidence to drive our future efforts - we are excited about this achievement.

Toitū is to care for the life of this place, our people and future. It is our name and commitment. To sustain holistically. To sustain continually

CLIMATE ADAPTATION PLATFORM

Future planning, creating practical solutions, and acting in advance are the keys to climate adaptation

Working together builds trust, confidence, and adaptability into the future

Access the latest news, articles, research on climate change adaptation
