

WSP

AAA Cyclists

Designing for a AAA users

- All ages and abilities

Other User Types

Takaka to Pohara Cycleway

User Types

- 500 to 2,000 vehicles per day
- Users around 100 to 200 cyclist/day
- A few penguins /day

Route Challenges

- 7.3Km
- Budget \$1M, or \$130/m
- 60m long narrow bridge
- Several large box culverts
- Narrow road width of 6.5M
- 80km/hr speed limit
- Primary school
- Cafe Parking

Solutions local lime Dolomite rock path

Solutions

Edge markers with no stopping symbols

Simple Bridge design timber 1,000/m²

Outcome

- Built in 10 weeks, cost under \$1M, very happy community
- Still an issue with road cyclists being unsealed
- \$400,000 bridge designed awaiting funding

Little Blue has the last word
