

22 yrs in Infrastructure - *has it been collaborative?*

Jarrold Bates

Why spend time on collaboration ?

Budgets reduced – pressure on networks.

Cost increases - seen record fluctuations.

People - Churn or turnover is large.

Why Listen to me ...? **What** would I know....?

I have worked on a few different contracts

Traditional maintenance	SOMAC	JV Alliances	PSMC	Network Outcomes (NOC)	NEC
Cost reimbursable	Alliances	TNZ Hybrid	3917		PBC
	3910				
	Brooks Law				

With a few different clients

Cover .. 4 insights of Great collaboration

1. The model doesn't matter...but it can help.
2. Understanding motivations... it takes two, or three, or more.
3. Collaboration takes commitment ... from suits to boots
4. Collaboration isn't just agreement...
Challenge is key.

1. The model doesn't matter...but it does help.

Tender Schedule...Well defined – clear.

Change ... 3 / 5 /10+ years.

Build price together – Brooke's law / Alliance type

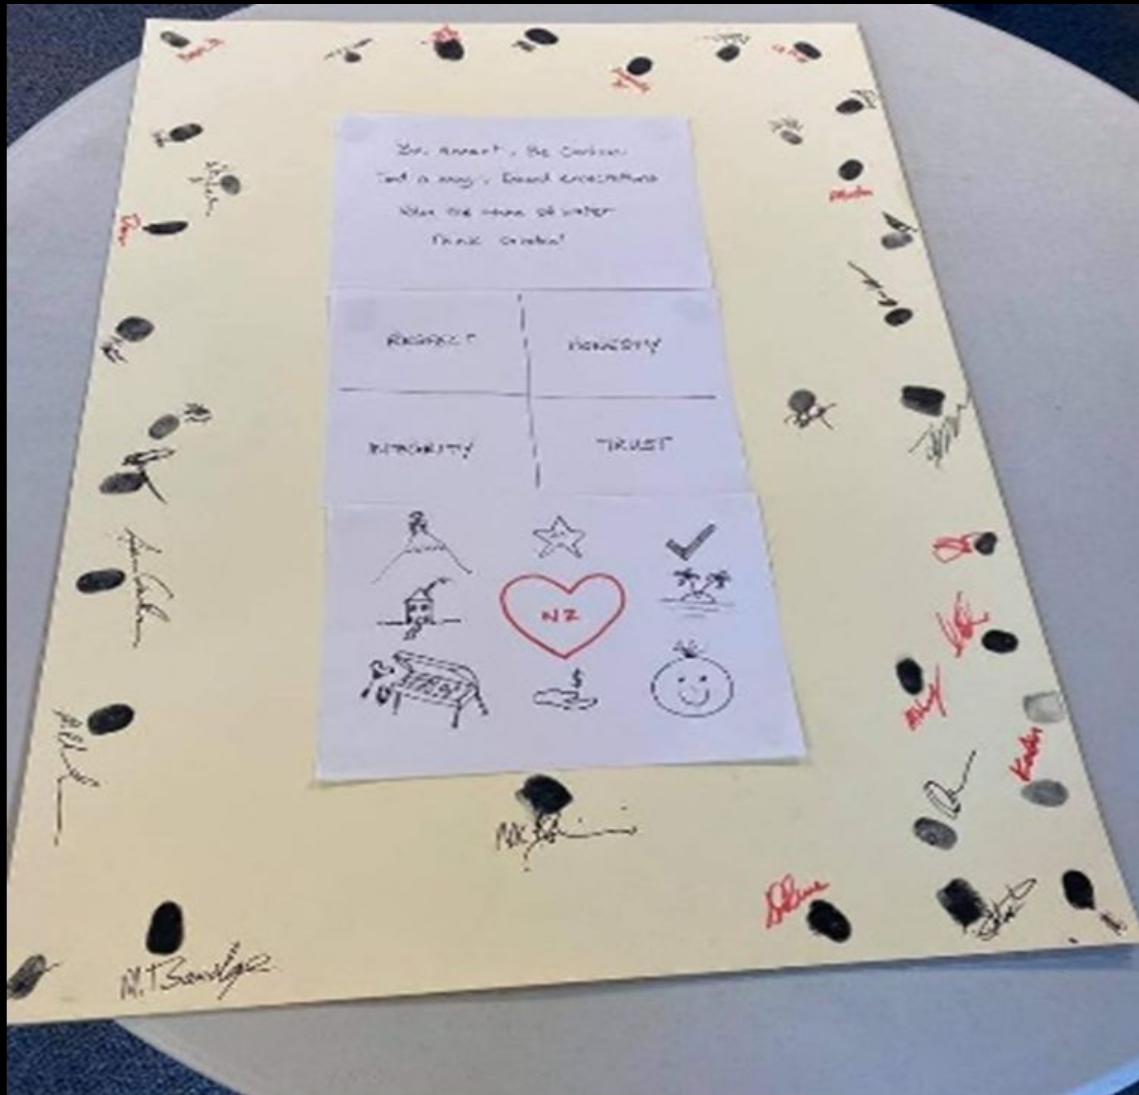

2.

A

H

ac

3. Collaboration takes Commitment.

Everyone on board...from Suits to Boots

Remove the outliers - brave conversations

Journey - Roadmap.

4. Collaboration isn't just agreement... Challenge is key.

Unicorns and rainbows....nope

Healthy challenge – encouraged.

Co-location – critical.

Mitch Little Academy is live now.

Kiwis are awesome people with lots of skills, but one thing they can't do is to build roads...lol

Counted 48 potholes going through Turua to Thames on Thursday,just as well I know the road,but for drivers safety they speed limit is 70 due to uneven surfaces so the sign says,nope potholes!!!!!!!

How are we supposed to respect the traffic control staff and road workers when they do this?

Let's hope the herald does a counter story about good TCs and STMS

Excellent advice Mr Upson! I have already seeing SM comments; "...it's 2023 the year we get rid of the Ardern Govt". We sure need our country fixed in the Infrastructure dept so the Economy doesn't keep getting further wrecked by for instance terrible roads!

You need a little moon lander for that one, because that's a crater!

These photos were taken about a week ago but I wanted to wait until the audi was collected by the owner before posting.

It's actually much much worse today when I came through here.

Some of you may remember I did a video on this same corner September?(I think) last year when a crashed car was left abandoned in the ditch after hitting the pothole here

Notice how it's been marked out for repairs (white spray paint)

... that white spray paint will fade away in about a month or so but in the mean time Auckland Transport gets to claim that the repairs are "booked in" 😂😂😂

Why do contractors do such substandard work? Wasting ratepayer and taxpayer money! Can we sue the contractors?

Write a comment...

Has it been collaborative ?

Yes - Contracts are getting better

Future - sustaining collaboration

Thank you.... Questions ?
