

AM 302 – ORGANISATIONAL STRATEGY

Overview

AM 302 – Organisational Strategy explores the interaction between the organisation strategic plan and asset management, particularly as that impacts on asset management people.

Since people are essential to delivering the desired asset management outcomes, AM 302 gives you the skills to develop an organisational culture of high performance.

By the end of this course, you will be able to:

- Apply the organisational strategic plan to Asset Management objectives
- Identify traits of high-performance organisations
- Link organisational leadership techniques to the successful completion of Asset Management outcomes
- Develop and champion an organisational culture.

Outcomes

This course will give you an advanced understanding of organisational strategy, culture, leadership and people management.
